### **Who are we?**

The British Columbia Community Mapping Network (BCCMN) is a group of citizens from around the province learning how to use community mapping as a way to build connections and increase inclusion and belonging for all people. Our network was started by Community Living BC Councils made up of people with diverse abilities, family members and community partners.

### **Our Vision**

*Welcoming, kind and inclusive communities where all people know how and where to connect in their community*

**We believe community mapping will help us build stronger communities by:**

- ❖ Sharing our Stories and Building Connections
- ❖ Mapping and Gathering Community Gifts and Assets
- ❖ Visioning and Building an Inclusive Future

### **What do we do?**

We have partnered with the Vancouver Public Library to map and share community gifts and resources related to **accessibility, social connection, and inclusive housing**. Please join us for our next session, dates to be announced soon!
